What's a Baking Powder for, anyway?

TO LEAVEN your dough and give that lightness to breads, cakes and pastries which makes such foods palatable and easily digestible.

DAVIS Baking Powder has a double leavening action

Tirst in the dough ~

Just as soon as the milk or water is added to make the dough, the leavening action starts and continues while the dough becomes warm in the first heat of the oven. This first leavening prevents cracking of the crust in a "quick" oven.

And again in the oven-

An additional or sustaining leavening action takes place in the full heat, preventing the dough from falling in a "slow" oven.

Davis double leavening means: -the dough will not crust and crack before it becomes "light". Second-it will not fall in the oven.

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, manufating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, triping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. J. M. Edwards discovered the formacia after seventieen years of practice among patients afflicted with bowel to be action of the control of the cont

CHECKING UN-AMERICANIZED

Public attention should not be di-verted from that great national fanger repeatedly pointed out by President Harding and recently men-loaced by President Coolidge—the un-Americanised allen in our midst.

Our government has recognized this danger by the enactment of an im-migration law which, it fairly and offectively enforced, would guard against the inflow of undesirable immigrant classes. The laws provide against the admission of criminals, of diseased and wonk-minded persons and of dependents, but these laws are being evaded by a considerable num ber of porsons. In his address at Portland, Ore., on July i last Prosi-dent Harding referred to this when

Thousands are finding their way Boross our borders or through our ports every month in deliance or evasion of the law because of our inaumcient regulations or inadequate provisions for enforcement of re-

In an earlier address to Congress on December 8, 1932, President Harding urged the enactment of bills then pending for the registration of the allen who has come to our shores. He truly said that:
"Life amid American opportunities

is worth the cost of registration if it is worth the socking, and the Nation has the right to know who are citizens in the making or who live among us and share our advantages while sock-ing to undermine our cherished in-

At the recent conference of gover-nors Freedont Coolidge directed at-tention to the fact that 100,000 allens are unlawfully entering the United States annually. This, he said, is a serious menace to the successful administration of our immigration

policy and of our laws generally.

The unlawful entrance of aliens who are not entitled to come is direct challenge to the American gov-ernment. All who so come dety the laws by the manner of their admission. Having come in defiance of the government, they live here in equal definees. Defying one law they are rendy to defy every other law. Only rarely is there among them one worthy to become a good American

There may be some question as to the wisdom of some of the details of our present immigration law. It was an emergency measure and was not claimed by its sponsors to be perfect. But whatever doubt there may be as to the wisdom of some features of the law, there can be no question by anybody anywhere as to the vital importance of enforcing that law when its enforcement is challenged by man outside of the United States who seek to come here and live here in de-

flance of law.

Apparently the only practical way of enforcing our immigration law is to provide for compulsory registration of aliens and the prompt deportation of every alten found to be here in violation of law.

The Connellaville Tornadoes are biting off a big mouthful of football this wook-end. There will ') two games played, one on Sunday and the

char on Monday, in connection with the celebration of Armistice Day.

On Sunday afternoon the team will play the Ormsby A. A. of Pittsburg, which team so far has proven to be one of the strongest independent plubs in the field. Last week the Ormsby eleven lost to Brownsville by only a single touchdown after a siz-seg battle on a muddy field. Many fans will gauge the comparative strength of the Tornadoen and Brownsville by the score Sunday. The Natrona Olympics, another Pittsburg team, which claims to hold

an undefeated record will be the attraction Monday. The contest will be at Payette Field. It will be played at 3 o'clock. The game is the chief event of the afternoon on Armistice Day.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the articles did not fulfil the promises of the manifacturar. This applies more particularly to a medicine. A medicinal preparation that has real cursitive value almost sells itself, as like an endless chain system the remody is recommended by those who have been benefited, to those who have been benefited, to those who are in need of it.

A prominent druggist says, "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never healtate to recommend, for a linear every case it shows excellent results, as many of my customers facility. No other hidney remody has so large a saile."

According to sworn statements and worthed testimony of thousands who have used the propuration, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder allmonts, overcome arthury tember and partially and periods.

BACON FAMILY

Piano Builders Since 1830

In 1830, when George Bacon entered the piaon business, quantity production was unknown Piano building was the work of a few carefully chosen artisans, men who blended with their skill a genuine affection for their products. In the workshops of Duboia & Bacon in 1880 was established the tradition of thorough workmanship which has always characterized pianos bearing the name of Bacon.

Under Francis Bacon, the successor of George Bacon every innovation in manufacturing methods that could be successfully applied to piano making was readily adapted, fitted into the careful Bacon tradition, and high-grade Bacon Pianos were made available in large

Was It Wrong for Her to Invite Him In?

CHE was just an innocent school girl, the daughter of a proud family—proud as they were puritanical. That she should receive attention from older male companions was, in the eyes of her parents, utterly in-

True, she occasionally mingled with younger boys at a church affair, or on some outing fostered by the school. But never were these boy friends allowed to cross the threshold of her home. What ignorance! What hypocrisy! It was only natural that she should pay the penalty. But for what?

He said she smiled at him. Perhaps she did. But how could she help it? There was the broad blue sky looking down-and the golden sunshine pouring over everything

"May I walk a little way with you?" he asked. "Of course you may," she answered. And as they walked along, they both seemed a part of the medley-the sky, sunshine and flowers. And when they reached her house, she told him about her father dying, of her mother being away and how lonesome the old home seemed.

"I don't suppose you wish me to come in?" he asked. "Why yes!" she told him, for she was delightedflattered—with the thought of his interest in her.

And when they had gone into the house and he had closed the door-suddenly he drew her towards him. 'Are you very sure that you want me to remain here with you alone?" he asked.

What was her answer? What would yours have been? Was it wrong for her to invite him in? You'll find the answer in one of the most appealing, pathetic stories ever written—a true tale of innocence, tragedy and crowning love—that is but one of many equally thrilling romances in the December issue of True Story Magazine.

Don't miss it!

Mrs. E. V. Bell, Huntington Park, Cal.

Written by Its Readers

TRUE STORY Magazine is not only read by its readers—it is written by them. That is why it is so different. That is why it is nationally recognized and ac-claimed "America's Fastest Growing Magazine." And that is why its monthly circulation has steadily grown from 75,000 (in 1919) to over 1,300,000 copies with the December 1923 issue.

Aside from the appeal of the true life the one thing that is undoubtedly responsible for the amazing success of this great magazine, is its frank, fearless, honest policy of portraying life's problems in their true light—in presenting the facts as they really are—in proclaiming the plain truth of the romances, adventures and tragedies of life as we actually know them.

Undaunted and unafraid, True Story Magazine attacks the problems which confront every man and woman-which re all must face at one time or another. It tells the truth because it should be told sunny spots on life's highway-interprets the morals of love, hate, chastity and sin so that all may read and

It has often been said that "truth is stranger than fiction." That is a fact few will readily deny. For the true story, which is based on available facts, about men and women-then failties, passions, ambitions and accomplishments—is not only stranger, but infinnely more interesting than the purely imaginative tile of the fiction writer.

Other Absorbing Stories in the December Issue

"The Man I Couldn't Vamp"

Could many girls, even if they would, draw such a picture of the past as she who writes this story? Would many men, even if they could, cast convenient saids as did the man who played such a big part in her life?

"Married for Love, But-" There's a buriang lesson in this young wife's story. For she little knew the danger a seculingly undecent filtration was to br. by to the man she married for love.

"The Painted Girl" He know nothing of what i woman who e name is black-ened naw suffer. She knew even less the code of his nort o' men. They met and lived this story.
